

# PROGRESSIVE DISCIPLINE IN THE WORKPLACE TRAINING

Federally regulated employers must apply progressive discipline to prove just cause to dismiss an employee who has worked for the employer for 12 months or more. Progressive discipline is the process of applying discipline of increasing severity as it relates to an employee's inappropriate behaviour. Applying this process properly is critical for employers. Employers who fail to follow their own process of applying progressive discipline or do not properly document the application of progressive discipline can face very costly consequences. **Learning about progressive discipline can help mitigate your risk as an employer.**

## What Will You Learn?

- How to properly apply progressive discipline
- Requirements under the *Canada Labour Code*
